

UNIVERSITY CLUB

Impulse presentations followed by
open discussion with snacks and drinks

Wednesday, May 7th, 2025

6:30 pm

KIT Campus Süd, 01.52 Gastdozentenhaus

Welcome to the UNIVERSITY CLUB!

In this session it will be discussed how CO₂ can be used as raw material.

Anna-Lena Drommershausen and **Jakub Gizewski**, KIT, Institut für Bio- und Lebensmitteltechnik, Elektrobiotechnologie will talk about

“Electro-biotechnological processes for the capture and utilization of CO₂”

and

Dr. Coralie Schneider, BASF SE, Material Science: Surfaces & Interfaces, Wetting & Adsorption

will present

“CO₂ utilization in construction materials”

These exciting topics await you with the opportunity to discuss with experts from BASF and the KIT at the University Club!

Come and join us!
